RAJIV GANDHI COLLEGE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE and Affiliated to Pondicherry University)

(Accredited with 'A' Grade by NAAC)

(Sponsored by Sri Balaji Educational and Charitable Public Trust)

Pondy - Cuddalore Main Road, Kirumampakkam, Puducherry - 607 403.

10.01.2022
Puducherry

From
Mr. R. SENTHILKUMAR
Event In charge,
Department of MCA,
Rajiv Gandhi College of Engineering and Technology,
Kirumampakkam, Puducherry - 607 403.

To
The Principal,
Rajiv Gandhi College of Engineering and Technology,
Kirumampakkam, Puducherry - 607 403.

Respected Sir,

Subject: Request for permission to conduct One Day Seminar for MCA Department Students

We have planned to conduct One Day Seminar on the topic " IPR Schemes for Innovators and Startups " on 25.01.2022. Mrs. V.JAYA LAKSHMI, Department of MCA, RG CET, will be the Event Coordinator. The above mentioned Seminar will be offered to the students of the MCA Department.

I kindly request you to grant permission to conduct this Seminar Enclosed are the details of the Seminar for your perusal and approval

Thanking you,

Yours Sincerely,

(R.Senthilkumar)

Dr. E. VIJAYAKRISHNA RAPAKA
B.Tech. (Mech.), M.Tech.(Energy), Ph.D. (IIT Madras)
M.I.S.T.E., F.I.I.P.E., M.C.S.I M.C.I.I.,

Seminar Report on the Topic " IPR Schemes for Innovators and Startups "

Date: 25.01.2022

Organized by: Department of Master of Computer Applications (MCA), Rajiv Gandhi College of Engineering and Technology (RG CET)

Target Audience: Students and Faculty of RG CET

1. Introduction

The Department of Master of Computer Applications (MCA) at Rajiv Gandhi College of Engineering and Technology (RG CET), organized a seminar entitled "IPR Schemes for Innovators and start ups". The seminar aimed to provide comprehensive information about Intellectual Property Rights (IPR) schemes, their significance for innovators and start ups and the processes involved in securing IP protection.

2. Objectives

The primary objectives of the seminar were:

- To educate participants about the various IPR schemes available for innovators and start ups.
- To highlight the importance of IPR in protecting innovations and enhancing business value.
- To provide detailed information on the application processes for different IPR schemes.
- To discuss the benefits and incentives associated with securing intellectual property rights.
- To encourage students and faculty to utilize IPR schemes for fostering innovation and entrepreneurship.

3. Seminar Details

a. Welcome Address:

The seminar commenced with a welcome address by Mr.R.SENTHILKUMAR, Head of the MCA Department at RG CET. Mrs V.JAYA LAKSHMI underscored the growing importance of IP in academic settings and the need for faculty and students to understand and leverage IP rights to protect their innovations and research outputs.

b. Keynote Presentation:

The keynote presentation was delivered by Dr S.ANTOINETTE AROUL JAYANTHI a renowned IP expert and academician. Provides an insightful overview of the role and importance of IP in academia, covering the following key points:

Dr. E. VIJAYAKRISHNA RAJAKA
B.Tech. (Mech.), M.Tech.(Energy), Ph.D. (IT)
M.I.S.T.E., F.I.I.P.E., M.C.S.I.M.C.I.I.,

Pondy - Cuddalore Main Road, Kirumampakkam, Puducherry - 607 403.

IPRs also have other benefits for their holders and for the public, including:

Enabling indirect revenues

Where a company protects its products or processes with IPRs, it can derive revenues not only from direct marketing but also from licensing the IPRs to third parties that manufacture and commercialize the products, in exchange for a fee or royalty. These additional indirect revenues sometimes exceed the profits resulting from the direct exploitation, particularly as they do not require additional internal manufacturing capacities.

Promotion of culture

In the creative sectors, such as the publishing, music or film industries, copyright enables authors, performers, producers and other creators to obtain an economic reward in return for their creations and activities, which enrich cultural heritage, enhance cultural diversity, and benefit society at large.

Dissemination of technical information

Even where a company, university or research institution does not intend to exploit its own patented inventions, any member of the public, including researchers, can still make use of patent information.

Facilitating technology transfer

Patents are often not just a convenient means of protecting an invention, but they also describe in a very accurate way technologies which are the subject of technology transfer and similar agreements (licensing, assignment, etc.). This 'technology packaging' / trade facilitation function justifies that patents have sometimes been considered as the 'currency' of the knowledge-based economy. To some extent, the same reasoning also applies to IPRs other than patents.

c. Interactive Q&A Session:

An interactive Q&A session followed the panel discussion, allowing participants to ask questions and seek clarifications on various aspects of IPR schemes. Topics covered included detailed application procedures, cost implications, strategies for maintaining IP rights, and leveraging IP for business development.
