Introduction

Modern high school graduates often pursue engineering careers without identifying their interests and goals, leading to significant challenges in their academic journey. Additionally, adjusting to a new environment, peer pressure, hostel life, parental expectations, teacher monitoring, competition, increasing workload, and personal aspirations can overwhelm students. As a result, many promising students experience a decline in academic performance. To assist students in overcoming these challenges, the AICTE introduced the Induction Program for all colleges. Induction Program adheres to the AICTE's directives and standards outline.

Considering the extended academic break after higher secondary exams, the induction program serves as a valuable educational initiative, rejuvenating students' spirits and redirecting them toward educational goals. The interaction with the induction program equipped entrants with the boost needed for their educational pursuits and familiarized them with the work culture, industrial exposure, social experiences, and various institutional activities. The induction program effectively supported students in rationalizing their study choices, developing bonds with peers, adapting to the new academic environment, exploring academic interests, determining goals, striving for excellence, broadening their life perspective, and building character.

RG CET hosted an Induction Program, a unique blend of tailored academic and non-academic activities, to nurture, mold, and fortify engineering entrants for the future. The one-week program, from 21.08.2019 – 28.08.2019, was executed with great enthusiasm by the institution's expert faculty. A total of 143 entrants from, Computer, Electronics, Electrical, Mechanical, Biomedical branches of engineering participated actively and benefited from the program. They received an overview of various engineering dimensions, career opportunities, and the college's systems and procedures, easing their transition to core engineering programs. They were enlightened about the potential scope of their chosen field for success.

OBJECTIVES

- 1) To familiarize the new student with the various branches, methods of study, various facilities, and the academic and administrative set up in the Institute.
- 2) To develop a sense of aesthetics and enhance creativity among students.
- 3) To generate favorable attitudes towards peers, senior students, teaching and non teaching staff in the Institution.
- 4) To inculcate value systems, ethics and leadership qualities among students.
- 5) To promote entrepreneurial thinking among students.
- 6) To inculcate effective communication skills, team work skills, multi-disciplinary approach, and develop a desire to apply knowledge of engineering for the real-life problems.
- 7) To sensitize students towards environmental issues and to develop an attitude to protect and conserve environment among students
- 8) To help new students adjust and feel comfortable in the new environment and inculcate in them the ethos and culture of the institution

- 9) To help them build bonds with other students and faculty members and expose them to a sense of larger purpose and self-exploration.

At Rajiv Gandhi College of Engineering and Technology, student Induction Programme is planned as soon as the first semester commences, before starting the regular classes.

Students Induction program cover various aspects such as

Socializing: Meeting other new students, senior students

Associating: visits to all departments, Programme of study & important places on campus

Governing: rules and regulations, student support

Experiencing: Subject lectures, study skills, small-group activities, physical activity, creative and performing arts, literary activities, universal human values, etc.

List of activities conducted in student induction program are:

- 1) Familiarization with College & Departments
- 2) Physical Activity (PA)
- 3) Creative Arts (CA)
- 4) Universal Human Values (UHV)
- 5) Literary Activities (LA)
- 6) Proficiency Modules (PM)
- 7) Personality Development (PD)
- 8) Lectures by eminent people
- 9) Extra-Curricular Activities
- 10) Mentoring

Outcomes of the Program

- 1) Students displayed confidence and successfully transitioned into the new academic environment.
- 2) Students utilized the primary resources and facilities of the institute.
- 3) Students established positive relationships with peers, faculty, and the institution as a whole.
- 4) Students associated moral values and behaviors with institutional practices.
- 5) Self-analysis and introspection were positively aligned with academic needs.
- 6) Students embraced structured and collaborative learning platforms.
- 7) Students' demonstrated exemplary performance in activities designed during the induction program.

Respected Sir
Sub: Request for Permission to Hands on training in Digi locker -Reg

I am writing to seek your permission to conduct a seminar on the importance of the Digi-Locker facility on August 22, 2019. Digi-Locker is an essential tool for digital storage and management of documents, and this seminar aims to educate students about its benefits, usage, and the convenience it offers in today's digital age. I believe this seminar will greatly enhance our students' understanding of digital resources and encourage them to embrace technology for better organization of their important documents. Please do the needful.

Thanking You

Yours faithfully

Sub: Requesting approval for environmental visit -Reg.

As part of our induction program, we emphasize the importance of environmental education and sustainability. A visit to the botanical garden will provide our students with a firsthand experience of diverse plant species, ecosystems, and conservation efforts, aligning perfectly with our educational objectives. I kindly request your approval for Ecology and social awareness trip to Botanical Garden, Puducherry and Art and Craft village, Puducherry on 26.8.2019
