Introduction

Education plays a major role in a nation's progress. The conventional method of passive classroom attendance and exclusively aiming for high exam grades is now considered outdated. It is believed that every individual possesses unique talents and traits. A teacher's role is to help students attain their goals by fostering these hidden talents and traits. Education should be meaningful, holistic, productive, and fulfilling by combining innate talent and core competency. The goal of an engineering college is not just to produce capable engineers but also to cultivate knowledgeable and well-rounded graduates who can extend their learning to society.

The Induction Program aims to integrate new students into the institution by providing them with necessary information for a smooth transition and academic success. As per the guidelines of AICTE a mandatory Induction Program was conducted for the first-semester students of the academic year 2021-22. This report details the activities and outcomes of the program.

OBJECTIVES

- 1) To familiarize the new student with the various branches, methods of study, various facilities, and the academic and administrative set up in the Institute.
- 2) To develop a sense of aesthetics and enhance creativity among students.
- 3) To generate favorable attitudes towards peers, senior students, teaching and non teaching staff in the Institution.
- 4) To inculcate value systems, ethics and leadership qualities among students.
- 5) To promote entrepreneurial thinking among students.
- 6) To inculcate effective communication skills, team work skills, multi-disciplinary approach, and develop a desire to apply knowledge of engineering for the real-life problems.
- 7) To sensitize students towards environmental issues and to develop an attitude to protect and conserve environment among students
- 8) To help new students adjust and feel comfortable in the new environment and inculcate in them the ethos and culture of the institution
- 9) To help them build bonds with other students and faculty members and expose them to a sense of larger purpose and self-exploration.

At Rajiv Gandhi College of Engineering and Technology, student Induction Programme is planned as soon as the first semester commences, before starting the regular classes.

Students Induction program cover various aspects such as

Socializing: Meeting other new students, senior students

Associating: visits to all departments, Programme of study & important places on campus

Governing: rules and regulations, student support

Experiencing: Subject lectures, study skills, small-group activities, physical activity, creative and performing arts, literary activities, universal human values, etc.

List of activities conducted in student induction program are:

- 1) Familiarization with College & Departments
- 2) Physical Activity (PA)
- 3) Creative Arts (CA)
- 4) Universal Human Values (UHV)
- 5) Literary Activities (LA)
- 6) Proficiency Modules (PM)
- 7) Personality Development (PD)
- 8) Lectures by eminent people
- 9) Extra-Curricular Activities
- 10) Mentoring

Outcomes of the Program

- 1) Students displayed confidence and successfully transitioned into the new academic environment.
- 2) Students utilized the primary resources and facilities of the institute.
- 3) Students established positive relationships with peers, faculty, and the institution as a whole.
- 4) Students associated moral values and behaviors with institutional practices.
- 5) Self-analysis and introspection were positively aligned with academic needs.
- 6) Students embraced structured and collaborative learning platforms.
- 7) Students' demonstrated exemplary performance in activities designed during the induction program.
