

# RAJIV GANDHI COLLEGE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE and Affiliated to Pondicherry University)

(Accredited with 'A' Grade by NAAC)

(Sponsored by Sri Balaji Educational and Charitable Public Trust)

Pondy - Cuddalore Main Road, Kirumampakkam, Puducherry - 607 403.

## Dr. Vijayakrishna Rapaka

B.Tech. (Mech.), M.Tech. (Energy), Ph.D. (Ocean Engineering, IIT Madras),  
M.I.S.T.E., F.I.I.P.E., M.C.S.I., M.I.S.E.S., M.A.S.E.E.

### PRINCIPAL

### Internship shall be made compulsory for all final year students of AICTE approved Institutes/Universities.

At Rajiv Gandhi College of Engineering and Technology (RG CET), internship opportunities are considered an integral component of the academic curriculum, particularly for final year students. As an institution approved by the All India Council for Technical Education (AICTE), RG CET adheres to the guidelines set forth by AICTE, which mandate the inclusion of internships for all final year students. Here's a detailed overview of how RG CET implements compulsory internships for its students:

#### 1. Integration into Curriculum:

RG CET incorporates internship programs into its academic curriculum, aligning with the guidelines provided by AICTE. The internship module is typically scheduled during the final year of study, allowing students to apply theoretical knowledge gained throughout their academic tenure in real-world settings.

#### 2. Industry Partnerships and Collaboration:

RG CET establishes partnerships and collaborations with various industries, organizations, and companies to facilitate internship opportunities for its students. These partnerships may be established through industry-academic interactions, corporate tie-ups, alumni networks, and placement cells.

#### 3. Identification and Selection of Internship Opportunities:

RG CET's placement cell, in coordination with department heads and faculty members, identifies and selects suitable internship opportunities for final year students. These opportunities may vary across different engineering disciplines and sectors, catering to the diverse interests and career aspirations of students.

#### 4. Pre-Internship Preparation:

Prior to the commencement of internships, RG CET conducts preparatory sessions and workshops to equip students with the necessary skills, knowledge, and expectations for their internship experience. These sessions may include resume building, interview preparation, workplace etiquette, professional communication, and project management.

## 5. Duration and Structure of Internships:

Internships at RGCET typically span a specified duration, as prescribed by AICTE guidelines, allowing students to gain meaningful exposure and experience in their chosen field. The structure of internships may vary, ranging from full-time, immersive experiences to part-time engagements, depending on the nature of the internship and the requirements of the industry partner.

## 6. Learning Objectives and Outcomes:

RGCET defines clear learning objectives and outcomes for internships, ensuring that students achieve specific learning goals and competencies during their internship tenure. These objectives may include gaining practical skills, industry exposure, problem-solving abilities, teamwork, leadership, and professional networking.

## 7. Mentorship and Supervision:

During internships, students are provided with mentorship and supervision by experienced professionals within the host organization. Mentors guide students through their projects, offer feedback and support, and facilitate their integration into the workplace environment.

## 8. Project Work and Deliverables:

Internship projects and assignments are designed to provide students with hands-on experience and practical exposure to real-world challenges and scenarios. Students are expected to complete project work and deliverables as per the requirements and expectations outlined by the host organization and academic institution.

## 9. Evaluation and Assessment:

RGCET evaluates students' performance during internships through continuous assessment, feedback mechanisms, and project evaluations. Students may be required to submit project reports, presentations, and reflective essays documenting their learning experiences and achievements during the internship.

## 10. Post-Internship Reflection and Learning:

Upon completion of internships, RGCET encourages students to reflect on their internship experiences, lessons learned, and areas for further growth and development. Post-internship debriefing sessions, seminars, or presentations may be organized to facilitate knowledge sharing and peer learning.

## 11. Industry Exposure and Career Opportunities:

Internships provide RGCET students with invaluable industry exposure, practical skills, and professional networks that enhance their employability and career prospects post-graduation. Internship experiences often serve as a springboard for securing job opportunities, intern-to-hire conversions, and long-term career advancement.

In summary, RGCET ensures the compulsory participation of all final year students in internship programs, as mandated by AICTE guidelines. Through strategic partnerships, preparatory support, structured experiences, mentorship, assessment mechanisms, and post-internship reflections, RGCET aims to enrich students' academic journey, enhance their professional skills, and facilitate their transition into the workforce with confidence and competence.
